

*'Achieving Excellence'*

**FAIRHILLS HIGH SCHOOL**

**SUSTAINABILITY POLICY**

Revised 13/02/07

## **POLICY**

Fairhills High School provides the school community with opportunities to develop attitudes, knowledge and commitment to the protection and development of the physical environment affecting the school and local community.

## **GUIDELINES**

- 1.1 Generate awareness, concern, and a sense of responsibility for environmental factors through practical and theoretical activities.
- 1.2 Provide opportunities for students to extend their knowledge of the physical environment through group participation within the school, local community, and involvement in discussion of current worldwide issues.
- 1.3 Establish procedures for the development and protection of the physical environment of the school through regular maintenance of grounds.
- 1.4 Conserve resources through encouragement of waste reduction, recycling, energy and water use minimization.
- 1.5 Provide students with fundamental knowledge of the world's environments so they may gain responsibility and provide leadership to sustain the earth for future generations.
